Colour Spots™

Beauty is more than skin deep — our candles are solid color throughout. Quality candles are essential partners in creating affordable spots of colour, candlelight and the WOW factor in every centerpiece. Form follows function – our candles perform above and beyond expectations every time, we guarantee it. Quick ship, factory-direct saves you time.

Unscented votives

Why settle for a selection of WHITE votive candles? We've got COLOR! Color all the way through; the extra touch that gets noticed. Always use votive cups because the candles liquify as they burn.

Hearts & Roses

Candles are important because romance is ALWAYS in style. No matter what the occasion, celebration, ceremony, or decor, candlelight illuminates the event with a touch of class. Candles are always welcome and appreciated. Little hearts and rosebuds make great wedding favors. Buy in bulk and save money with our Case Pack discounts.
